LeetCode

Portfolio

## Education

IIIT Sri City

Bachelor of Technology in Computer Science

Aug 2023 – June 2027

CGPA: 8.73

## Projects

**TEDxIIITS Website** | Next.js, TypeScript, Prismic CMS, Tailwind, Go, PostgreSQL

Website

- Engineered a hybrid-rendered event platform for **500+ attendees** using **Next.js 15** App Router, integrating **Prismic headless CMS** and dynamic JSON archives for seamless content management.
- Optimized frontend performance by implementing a custom client-side video processing pipeline, in-memory caching, and on-demand cache revalidation, achieving a **95+ Lighthouse score**.

**Ojas.ai** | Next.js, React, FastAPI, LangGraph, FAISS, Groq API, Raspberry Pi

GitHub

- Built an **Ayurvedic SLM-powered healthcare assistant** delivering hyper-localized, native-language consultations using an **8B parameter LLM**.
- Engineered a **modular microservices architecture** (FastAPI backend + React frontend) enabling offline-first capabilities.

**Ledgera** | Next.js 16, TypeScript, Go, PostgreSQL, Blockchain, Solidity, Foundry, Turborepo

GitHub

- Built a **blockchain-enabled carbon credits marketplace** by integrating a high-performance **Go + PostgreSQL** backend with a decentralized **EVM settlement layer**; architected a **3-layer Clean Architecture API** using Echo and pgx (raw SQL).
- Developed **ERC-1155 smart contracts** (Solidity, Foundry) enabling **non-custodial P2P trading**; delivered a scalable **full-stack monorepo** with **Next.js 16** and **Turborepo**.

## Experience

**KHM Engineers**

July 2025 – Sep 2025

Software Development Intern

Remote

- Engineered a **portfolio management application**, building interactive dashboards for financial visualization.
- Optimized **database aggregation queries** and established **real-time stock price pipelines** using **WebSockets**.
- Developed **web scraping services** and automated **cron jobs** to process Mutual Fund data, generating growth comparison metrics.

## Technical Skills

**Languages:** C, C++, Java, Python, Go, Solidity, HTML, CSS, Javascript, TypeScript

**Frontend:** React, Next.js, Tailwind CSS, GSAP, Framer Motion, Three.js

**Backend:** Node.js, Express, Echo, PostgreSQL, MongoDB, Firebase, Prismic CMS

**Blockchain:** Ethereum, Hardhat, MetaMask, Foundry, Smart Contracts

**DevOps & Dev-Tools:** Git, GitHub, Docker, Turborepo, CI/CD, Cloud Computing, Raspberry Pi

## Achievements

- Ideaverse 2026 Hackathon:** Secured 5th Prize among 70+ teams for building **Ojas.ai**, an Ayurvedic AI healthcare assistant with an 8B-parameter LLM and offline-first microservices architecture.
- Global Game Jam Winner:** Three-time 3rd Prize Winner, recognized for rapid prototyping and technical execution in game development.
- CyberTEA 3.0 Lead Organizer:** Led a cybersecurity bootcamp for 100+ participants, coordinated 20+ mentors, and deployed a zero-downtime CTF platform supporting 400 concurrent users.
- HackTheBreach IIIT Sri City:** Developed and maintained the official website for the cybersecurity event.
